SUMMARY

*An enthusiastic Software Developer with **more than 3 years of experience** in application and website development. Looking for an opportunity wherein I can showcase my experience and work in a competitive task and there by contributing towards organization's success.*

WORK EXPERIENCE

RobosoftTechnologies

Jul 2018 — Present

Hybrid Application Developer

Working as a hybrid application developer in Robosoft Technologies, Udupi.

Currently working for a renowned Mutual Fund distributor's responsive web portal and mobile application (iOS and Android). My key responsibilities are to develop the application end-to-end, deciding the technologies to choose and to suggest the changes in the design to client.

Majesco Software and Solutions IndiaPvtLtd

Jun 2015 — Jul2018

Full Stack Developer

Worked as a Full Stack Developer at Majesco for exact 3 years. Worked in multiple projects and the major one is for US based client's Insurance portal. Technologies which I have worked on are Angular JS, JAVA, Oracle SQL, Spring, HTML5, CSS3, Bootstrap, Require JS.

PROJECTS

Axillo(RobosoftTechnologies)

Jul 2018 — Present

Axillo is a project of Axis Mutual Fund. The project is about developing hybrid applications (web portal and mobile applications) for their distributor where they can manage and update their client list as well as carrying out their transactions.

Role:Hybrid Application Developer (Ionic 4 + Angular

6)**Technologies:**Ionic wrapper with Angular 6, Bootstrap,

Cordova.**Team size:**4

Responsibilities:Designing the project structure, deciding the technologies to be used and developing the UI side of the project end-to-end.

New York Life Insurance(MajescoLtd)

Jul 2018 — Present

It is an online portal for New York Life Insurance catering the life insurance facilities for their insurers. The insurers can be an employee of New York Life Insurance or a group of TPA's client. It also has an admin portal of underwriters to approve/reject the online insurance applications.

Role:Full Stack Developer (Angular1.3/Angular 4, Java/Spring, Oracle SQL)

Technologies:Backbone JS, Angular 1.3, Angular 4, HTML5, CSS3, Java/Spring, Require JS, Bootstrap, Oracle SQL, Javascript/jQuery.

Team size:15

Responsibilities:Leading the UI team of size 2 and guiding them and building UI screens based on client's requirements and supporting the same.
