📍 Udupi

Currently working as a Frontend technical lead with 5 years of experience in frontend development. I have worked on more than 10 projects end-to-end in past 5 years including both product and services. Actively looking for suitable opportunity where I can explore more cutting edge technologies and a better workplace there by being a part of success of the organization.

## WORK EXPERIENCES

### Lead Front-end Developer
Robosoft Technologies, Udupi | Jul 2018 - Present

My current role in Robosoft is to lead the Front-end team. I have working on multiple projects and I'll be invloved in all the projects there by motivating and guiding the UI team. My responsibilites as a Front-end lead are:

- Building the project from scratch, thereby designing the farmework of the project in modular and most maintainable way.
- Documenting the framework with DFDs.
- Motivating the team and learning from the team.

### Software Developer
Majesco ltd, Navi Mumbai | Jun 2015 - Jul 2018

My role in Majesco was to be a Front-end Devloper where I could put my time and ideas in Building Majesco's own product and be a part of huge team providing software service in Insurance domain. My responsibilites here was:

- Planning and finishing the task wich was assigned and being with the team during critical stages.
- Giving daily reports of front-end development to client.

## PROJECTS

### Axis Mutual Fund Investor Application
at Robosoft Technologies

Its a hybrid application build with Angular 8 + Ionic 4 framework for web, Android and iOS. Its an app for the mutual fund investors wherein the user can invest and watch the funds they have invested in. The user can do all the transactions which a normal Mutual Fund user can do.

Currently Android is live in Playstore for limited user, iOS is all set to release into App Store and web developed in going on.

- Android App: https://play.google.com/store/apps/details?id=com.axismf.investorapp
